

POSTDOCTORAL FELLOW IN BIOTECHNOLOGY/BIOCHEMISTRY

JOB OFFER:

The Structural Biology Group (<http://crystal.chem.uw.edu.pl/staff/gorna.html>) is looking for a postdoctoral fellow to fill a lead position in a R&D type of research project.

Requirements:

- not more than 34 years old on 16.12.2014 (i.e. 35 years old in 2015 is fine)
- strong interest in running a R&D project
- good publication record (alternatively, significant experience in a non-academic scientific setting)
- experience in biotechnology and molecular biology
- ability to set up new assays

Work in this project will include protein mutagenesis and purification, RNA binding assays, ELISA, some biophysical methods, patent filing.

Enthusiasm for R&D, prototype establishment and patenting/tech transfer is highly recommended, as well as both fluent English and fluent Polish (international working environment).

The position is for 3 years starting from February 2016, with salary negotiable.

Applications with a motivation letter, CV and 2 reference letters should be sent to recruit.gorna@gmail.com. The offer is valid until the position is filled, but not later than January 10th 2016.
